THE DAY AND THE WORK.

To each man is given a day and his work for the day; And once, and no more, he is given to travel the way; And woe if he files from the task whatever the odds, For the task is appointed to him on the scroll of the gods.

There is waiting a work where only his hands can avail; And so, if he falters, a chord in the music will fall; He may unthink to the sky, he may lie for an hour in the sun, But he dare not go hence till the labor appointed is done.

To each man is given a marble to carve for the wall; A stone that is needed to heighten the beauty of all; And only his soul has the magic to give it grace, And only his hands have the cunning to put it in place.

Yes, the task that is given to each man, no other can do, So the errand is waiting; it has waited through ages for you; And now you appear; and the hushed ones are turning their gaze, To see what you do with your chance, In the chamber of days.

UNITED STATES GARDEN ARMY.

Five million children from twelve to sixteen years old are being mobilized for the United States Garden Army, which is going to raise five million dollars worth of vegetables next summer for home consumption. At that time the country will be sending about two million tons of food to Europe, and the government immeasurably in keeping its promise to starving Europe if we have plenty of home-grown products to eat here. We do not send vegetables and fruit abroad. They will have to take the place, at our tables, of the things that are exportable.

Fifteen trained organizers are now in the field to build up this garden army. It will be composed of boys and girls. They will be taught their gardening as a regular part of their school program. Secretary Lane and the Department of the Interior have mapped out the plans, aided by the Bureau of Education at Washington. It is not an untried experiment. This year a million and a half of the war gardens of the country were made by school children, who enrolled at Washington as soldiers of the garden army. On an average, each child raised ten dollars worth of vegetables.

In the schools, the subject will be studied as seriously as arithmetic and other indoor lessons. Teachers will be given intensive courses in garden work; garden supervisors will be appointed, and lesson leaflets about gardening will be written by experts "called to the colors" by the bureau at Washington. The gardens will be in the city parks, country fields and home yards.

ALL THE GIRLS HAD A GOB AT W. C. C. S. PARTY WEDNESDAY

Every girl had a "gob" yesterday. At least every girl who appeared at the Army and Navy club, in response to the invitation of the War Camp Community Service, did.

They picked their escorts for a "movie" party. Some of them had two or three and sometimes four, to show a good time, for the usual order of things was reversed and the girls were the hosts.

One hundred young women appeared to do the honors of the day. There were probably five times as many men ready for the New Year's frolic. Most of them wore the "jackets" uniform, but here and there in the crowd could be distinguished the army and marine regalia. For over a square, from the Garden theatre, where the entire center section was reserved the line stretched and when the doors opened there was a rush for admittance. "Timidly at first the 'escorting' began, but before the afternoon was over leap year customs became the order of the day and the party ended in a jollification at the club.

CHANGES IN STREET-CAR OPERATION HERE MEET WITH MUCH APPROVAL

Two innovations carried out, beginning yesterday, by the Pensacola Electric company, were received with much approval by the city. They were the removal of the skip-stop plan of operating the cars, given by order of the federal fuel administration through Administrator Wilmer Hayward of Escambia county.

The placing of prepayment cars on the East Hill line certainly meets with the approval of citizens who reside on that line, if the many statements of approval heard yesterday may be taken as a criterion.

EAST COAST LINE TO BE OPERATED UNDER EASTERN TIME HEREAFTER

Travelers toward eastern Florida over the L. & N. had their attention called by railroad officials to the fact that the East Coast line is now being operated under eastern time instead of central time. While this change does not affect West Florida, all trains on the East Coast are now operated by the new schedule, and travelers are urged to take notice of this in calculating connections.

THE MAKING OF A FAMOUS MEDICINE

How Lydia E. Pinkham's Vegetable Compound Is Prepared For Woman's Use.

A visit to the laboratory where this successful remedy is made impresses even the casual looker-on with the reliability, accuracy, skill and cleanliness which attends the making of this great medicine for woman's ills.

Over 350,000 pounds of various herbs are used annually and all have to be gathered at the season of the year when their natural juices and medicinal substances are at their best.

The most successful solvents are used to extract the medicinal properties from these herbs.

Every utensil and tank that comes in contact with the medicine is sterilized and as a final precaution in cleanliness the medicine is pasteurized and sealed in sterile bottles.

It is the wonderful combination of roots and herbs, together with the skill and care used in its preparation which has made this famous medicine so successful in the treatment of female ills.

The letters from women who have been restored to health by the use of Lydia E. Pinkham's Vegetable Compound which we are continually publishing attest to its virtue.
